

## ABOUT THE EVENT

*You're invited to the wedding reception of the year,  
With some of the guests shedding tears.  
Filled with mystery and mayhem all around you,  
Clues and red herrings to confuse and confound you.  
You're a suspect and sleuth all in one,  
And the order of the evening is to have fun!*

The wedding of Preston Reginald Witherspoon III and Amelia Jayne Beckinsworth is sure to be "A Wedding to Remember!"

Join us to toast the happy couple as they pledge undying love "until death do they part" . . . however soon that may be. Suspense and commotion quickly take center stage as the happy event unravels a web of lies, secrets and unexpected turns for the worst that steal the spotlight.

It's a case of deception, deep, dark secrets, and self-centered disloyalty that will end up with someone wearing handcuffs by the end of the night. Are you the guilty party? Or is it one of the guests at your table? The suspect list grows and grows.

Don't miss this fun-filled dinner and show for a good cause! Dine, dance and deduce who the guilty parties are as you support the Leslie Munzer Neurological Institute of Long Island. All net proceeds from the event will be used to fund the Institute's educational programs, community support groups and AVM research.

## LESLIE MUNZER NEUROLOGICAL INSTITUTE OF LONG ISLAND MISSION STATEMENT

The Leslie Munzer Neurological Institute of Long Island, Inc. is a 501(c)(3) not-for-profit organization whose mission is to provide information to patients and the community concerning neurological and physiological disorders and diseases, encourage the prevention of brain and spinal cord injury, promote the early diagnosis of neurological disorders and diseases, improve the quality of life for Long Islanders affected by neurological disorders and diseases, and help find a cure for diseases of, and related to, the brain and spinal cord.

THIS YEAR'S HONOREE

MICHAEL H. BRISMAN, M.D., F.A.C.S.

Michael H. Brisman, M.D., F.A.C.S., is a Board Certified Neurosurgeon who is proficient in adult neurological surgery. He specializes in stereotactic and radiosurgery techniques for the treatment of brain tumors and trigeminal neuralgia.

Dr. Brisman received his undergraduate degree with high honors in Biology from Harvard University and his medical degree from Columbia College of Physicians and Surgeons. He then completed a General Surgery Internship and

Neurological Surgery Residency at The Mount Sinai Medical Center in New York City. He was appointed Chief Resident in his final year of residency.

Following his training, Dr. Brisman joined Neurological Surgery, P.C. In 2002, Dr. Brisman was appointed Co-Medical Director of the Long Island Gamma Knife and Chief of Surgical Neuro-Oncology at South Nassau Communities Hospital in Oceanside. Since then, Dr. Brisman has performed over 400 Gamma Knife surgeries on patients with brain tumors, trigeminal neuralgia, and arteriovenous malformations (AVMs).

In 2005 he was also appointed Chief of the Division of Neurosurgery and Co-Director of the Neuroscience Institute at Winthrop University Hospital in Mineola. With the arrival of New York's first Cyberknife at Winthrop University Hospital, Dr. Brisman now also offers radiosurgery treatments for tumors of the spine and spinal cord.

Dr. Brisman has authored numerous articles and book chapters in the field of neurosurgery. He serves on the Board of Directors of the New York State Neurosurgical Society. Dr. Brisman is also the Chairman of the Communications and Media Committee of the Nassau County Medical Society (NCMS), and serves on the executive committee of the NCMS.

We honor Dr. Michael H. Brisman for having the leadership, vision and concern for individuals affected by neurological disease that led to the creation of the Leslie Munzer Neurological Institute of Long Island.
