Long Island Neurological Support Group Schedules

2010

*Providing Educational Tools
And Emotional Support to Patients
With Neurological Disorders
And Their Caregivers*

About The Leslie Munzer Neurological Institute of Long Island, Inc.

The Leslie Munzer Neurological Institute of Long Island, Inc. is a 501(c)(3) not-for-profit organization whose mission is to provide information to patients and the community concerning neurological and physiological disorders and diseases, encourage the prevention of brain and spinal cord injury, promote the early diagnosis of neurological disorders and diseases, improve the quality of life for Long Islanders affected by neurological disorders and diseases, and help find a cure for diseases of, and related to, the brain and spinal cord.

Support groups are free of charge and are open to all adult individuals suffering from neurological disorders. Caregivers are welcome to attend the support groups. You will have the opportunity to share your feelings, concerns, experiences and positive ways to cope with others. We encourage you to participate fully and address your questions and concerns. With the encouragement of fellow patients and their families, combined with the structure of a physician-guided support group, each patient and their guests should leave feeling educated and empowered.

The Leslie Munzer Neurological Institute of Long Island, Inc. is able to provide these supportive services to our LI community through the generosity of our donors.
